For the cleaning of upholstery, carpets, velours, vehicle coverings, textiles etc.

Comment

In order to avoid any differences in color and contrast between treated and untreated areas, the application should always be carried out on the complete surface.

Application

Shake vigorously before use then spray onto the surfaces to be cleaned to produce a foam. Allow to act depending on the degree of contamination (2-5 minutes). Rub in using a brush in order to remove stubborn contaminants. Wipe off residues with a damp sponge (distilled water) or allow to dry and then vacuum. Repeat process in case of heavy soiling.
