

## Windshield Foam Cleaner

### Description

Powerfully cleans all vehicle windows. Provides a streak-free view as well as better visibility and safety in traffic. Dissolves and removes silicone, nicotine, insects, and oily and greasy residues thanks to the highly effective foam. Suitable for polycarbonate and does not attack rubber, paints or plastics.

### Properties

- for indoor and outdoor use
- excellent cleaning effect
- takes effect quickly
- high capacity

### Technical data

|                    |                       |
|--------------------|-----------------------|
| Color / appearance | colorless             |
| Form               | aerosol               |
| Odor               | characteristic        |
| Flash point        | -60 °C                |
| pH value           | 9,5                   |
| Density at 20 °C   | 0,9 g/cm <sup>3</sup> |

### Areas of application

For internal and external cleaning of vehicle windows. Especially after window repairs. Also for all windows and headlights in the passenger car and commercial vehicle sector.

### Application

1. Shake well before use. 2. Spray uniformly and thinly onto the surface to be cleaned until there is a fine foam film on the glass. Allow this to act briefly. 3. Use a clean cotton cloth or absorbent paper towel to wipe it off and rub dry.
